Datasheet FU 10.000 (Nitrogen pumpunit)

| | | |
|---|--------------------|-------------------------------------|
| Vaporization principle | | 3 stage direct fired burner |
| Dimensions l x h x b | mm | 9.000 x 4.000 x 2.500 |
| Maximum working pressure | bar | 400 |
| Maximum flow | Nm ³ /h | 10.000 |
| Maximum outlet temperature nitrogen | °C | 250 °C with 2.000 m ³ /h |
| Maximum fuel consumption | ltr/h | 150 |
| Total weight | kg | 15.000 |
| Safety and recording system for pressure | bar | 0 – 400 |
| Safety and recording system for temperature | °C | 0 – 250 |
